ATTACHED AS AN ADDENDUM AT THE END OF THIS CATALOG IS OUR CAREER DEVELOPMENT CURRICULUM SCHEDULE

OUR MISSION STATEMENT

Sea Experience Diving Schools is completely dedicated to creating successful professionals in the scuba diving industry through educational awareness, and industry leading initiatives at our international training facility.

The course numbering system used in the catalog is derived from the course name. Example:
Emergency First Response/CFC is referenced as EFR/CFC-1. This system applies throughout our catalog.

TOTAL IMMERSION PROGRAM 276 CLOCK HOURS

The Total Immersion Program (TIP) was developed to take the non-diver through PADI Divemaster keeping in mind PADI's time and dive number requirements. This program can be entered with no certification or experience. *A full set of gear is included with tuition.*

Objective: the objective of Sea Experience Diving Schools Total Immersion Program is to take the non-diver and assist them on their path to becoming a PADI dive professional and working in the scuba industry. The Total Immersion Program takes the non-diver as far as possible in the PADI system keeping in mind PADI's dive number requirements for Divemaster.

Entrance/Admission requirements: 18 years old, PADI Diving Medical examination form signed by a physician (specifically an MD or DO) stating fitness to dive and dated within the previous 12 months.

Total Immersion Program consists of 9 components:

OW-00:	PADI Open Water	25 Clock Hours	3 Days
AOW-00:	PADI Advanced Open Water	22 Clock Hours	3 Days
DVES-00:	PADI TIP Dives	50 Clock Hours	10 Days
MSD-00:	PADI Master Scuba Diver	35 Clock Hours	5 Days
EAD-00:	PADI Enriched Air Diver	10 Clock Hours	2 Day
EFR/CFC-00:	PADI Emergency First Response/CFC	10 Clock Hours	1 Day
POP-00:	PADI Oxygen Provider	6 Clock Hours	½ Day
RES-00:	PADI Rescue Diver	32 Clock Hours	3 Days
DM-00:	PADI Divemaster	86 Clock Hours	10 Days

PADI Open Water Course *25 Clock Hours* OW-00

The PADI Open Water Course is a three day class which provides the skills and knowledge necessary to become a safe, certified, recreational scuba diver. The course consists of a full day of classroom and pool work followed by two half days of ocean dives with an instructor.

Minimum age: 18 years old (minimum 18 years of age in order to track toward Divemaster)

Certification: PADI Open Water Diver

Number of Dives: 4

Required Equipment: Masks, fins, snorkel, wetsuit, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), dive knife or cutting tool, pencil, underwater slate, surface signaling device (recommended) and a pocket mask.

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge however a deposit of \$50.00 is required to cover possible loss.

Please see next page for the breakdown in clock hours

PADI Advanced Open Water Course *22 Clock Hours* AOW-00

The Advanced Open Water Course is a three day training class which provides recreational divers with the knowledge required to safely plan and conduct advanced recreational level dives. Three advanced level boat trips, which include six advanced level dives followed with an academic session for each topic.

Prerequisite: Applicant must be certified as PADI Open Water Diver and show completion of Knowledge Reviews.

Minimum Age: 18 years old

Certification: PADI Advanced Open Water Diver

Number of Dives: 6

Required Equipment: mask, fins, snorkel, wetsuit, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), dive knife or cutting tool, pencil, underwater slate, surface signaling device (recommended) and a pocket mask.

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss

Logbook x 10 days	
Total Clock Hours	50.0

PADI Master Scuba Diver***35 Clock Hours*****MSD-00**

The PADI Master Scuba Diver Course is a five day training class which provides advanced level divers with additional training in five specified types of diving. Five boat trips with specialized practical training and knowledge reviews which denotes the diver with superior experience and achievement.

Prerequisites: PADI Open Water Diver , PADI Advanced Open Water Diver , PADI Rescue Diver, Minimum of five PADI Specialty Diver courses, Minimum of 50 logged dives

Minimum Age: 18 years of age.

Number of Dives: 14

Required equipment: mask, fins, snorkel, wetsuit, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), dive knife or cutting tool, pencil, underwater slate, surface signaling device (recommended) and a pocket mask.

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.

PADI Rescue Diver

32 Clock Hours

RES-00

The PADI Rescue Diver course is a four-day class which is an important step in expanding upon the Advanced Open Water Diver knowledge and experience. This performance-based course will involve classroom presentations, pool training and beach skill development sessions followed by 6 ocean and lake training dives. Upon completion of the course, the student is certified as a PADI Rescue Diver and qualifies for further training as a PADI Divemaster.

Prerequisites: Applicant must be certified as a PADI Advanced Open Water Diver or equivalent and Emergency First Response/Care for Children or its equivalent. Plus 20 logged dives.

Minimum Age: 18 years

Certification: PADI Rescue Diver

Number of Dives: 6 (10 training exercises and 2-4 open water scenarios conducted during pool, beach, lake and boat sessions)

Required Equipment: Masks, fins, snorkel, wetsuit, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), dive knife or cutting tool, pencil, underwater slate, surface signaling device (recommended) and a pocket mask.

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.

PADI Divemaster***86 Clock Hours*****DM-00**

The PADI Divemaster course is a 10 day course during which qualified Rescue Divers learn the knowledge and skills necessary to make the transition from a recreational diver to the first professional membership level of PADI. Instructor level academic knowledge will be developed and tested.

Confined water training includes improving all standard open water skills to demonstration quality. Rescue skills, equipment exchange (problem solving), watermanship and stamina are also evaluated.

Dives typically includes; deep, wreck, drift, reef, navigation, underwater mapping. Next will be dive leader exercises, which will develop the candidates' skills in dive planning, leadership and proper response to common underwater problems.

Functioning as an instructional assistant is also covered in the pool and the ocean. Upon successful completion of the course, the student is certified as a PADI Divemaster and qualifies for attendance in both the PADI Instructor Development Course (IDC) and Sea Experience Diving Schools' Resort Specialist.

Prerequisites: PADI Rescue Diver or equivalent. First Aid and CPR certification within the last 24 months (PADI EFR is recommended). 40 dives are required to start the Divemaster program but 60 dives are required before you can be certified (this must also include Deep, Night & Navigational dives). Diving accident insurance (DAN is recommended). PADI Diving Medical Examination Form signed by a physician (specifically an MD or a DO) stating fitness to dive and dated within the previous 12 months.

Minimum Age: 18 years of age.

Certification: PADI Divemaster.

Number of Dives: 12*

Required Equipment: Masks, fins, snorkel, wetsuit and dive gloves, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), timing device (watch with second hand), dive knife or cutting tool, pencil, underwater slate, visual surface signaling device, audible signaling device (both surface and underwater) PADI RDP, eRDPml, logbook, two dive lights (one primary and one backup), non-rebreather and a pocket mask.

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.

**Unlike most PADI Divemaster courses that require only 6 dives (some facilities only conduct lake dives), at Sea Experience Diving Schools you will get 12 ocean boat dives!*

This program meets the requirements for students to take any tests or exams required in this curriculum

Phase 2 – Professional Divemaster Program

144 Clock Hours

The Professional Divemaster Program is the first Phase of the Sea Experience Diving Schools Scuba Career Development Curriculum. The program takes divers from sport diver to Divemaster and encompasses all courses required to enter a PADI Instructor Development Course (IDC), plus optional but highly recommended career enhancement courses. This Phase can be entered at any level once meeting the entry requirements. *Advanced Open Water Certification is required.*

Objective: The objective of Sea Experience Diving Schools Phase 2, Professional Divemaster program is to take the experienced recreational diver and elevate their certifications and diving skills to the professional level which culminates with PADI Divemaster. This program prepares these divers to go on to the next level which is Phase II, Open Water Scuba Instructor.

Entrance/Admission Requirements: 18 year old, current CPR & First Aid training within the last 24 months (PADI EFR/CFC is recommended), PADI Open Water and Advanced Open Water or equivalent. 20 dives are required at minimum to start the Rescue and Divemaster components, 60 dives are required before you can be certified as a Divemaster (must also have certifications in Deep, Night and Navigation dives, completion of Knowledge Reviews for Enriched Air, Diving Accident Insurance (DAN is recommended), PADI Diving Medical Examination form signed by a physician (specifically an MD or a DO) stating fitness to dive and dated within the previous 12 months.

Phase 2 Professional Divemaster Program consists of five components:

EFR/CFC-2:	PADI Emergency First Response/CFC	10 Clock Hours	1 ½ Day
POP-2:	PADI EMERGENCY Oxygen Provider	6 Clock Hours	½ Day
RES-2:	PADI Rescue Diver	32 Clock Hours	3 days
EAD-2:	PADI Enriched Air Diver	10 Clock Hours	2 Day
DM-2	PADI Divemaster	86 Clock Hours	10 Days

PADI Emergency First Response/CFC *10 Clock Hours* EFR/CFC-2

The PADI Emergency First Response (EFR) course is a basic training course in emergency care, CPR, basic first aid, AED and other important emergency care skills. They are combined into a 1.5 day course which allows graduates to function with consistent priorities in an emergency. This training is a prerequisite for certification as a PADI Rescue Diver, PADI Divemaster and meets the requirements for career students attending the PADI IDC and EFR Instructor training.

Prerequisites: Any person may attend this course

Minimum Age: 18 years of age

Certification: PADI Emergency First Response/CFC

PADI Divemaster

86 Clock Hours

DM-2

The PADI Divemaster course is a 10 day course during which qualified Rescue Divers learn the knowledge and skills necessary to make the transition from a recreational diver to the first professional membership level of PADI. Instructor level academic knowledge will be developed and tested.

Confined water training includes improving all standard open water skills to demonstration quality. Rescue skills, equipment exchange (problem solving), watermanship and stamina are also evaluated.

Dives typically includes; deep, wreck, drift, reef, navigation, underwater mapping. Next will be dive leader exercises, which will develop the candidates' skills in dive planning, leadership and proper response to common underwater problems.

Functioning as an instructional assistant is also covered in the pool and the ocean. Upon successful completion of the course, the student is certified as a PADI Divemaster and qualifies for attendance in both the PADI Instructor Development Course (IDC) and Sea Experience Diving Schools' Resort Specialist.

Prerequisites: **PADI Rescue Diver or equivalent. First Aid and CPR certification within the last 24 months (PADI EFR is recommended). 40 dives are required to start the Divemaster program but 60 dives are required before you can be certified (this must also include Deep, Night & Navigational dives). Diving accident insurance (DAN is recommended). PADI Diving Medical Examination Form signed by a physician (specifically an MD or a DO) stating fitness to dive and dated within the previous 12 months.**

Minimum Age: **18 years of age.**

Certification: **PADI Divemaster.**

Number of Dives: **12***

Required Equipment: **Masks, fins, snorkel, wetsuit and dive gloves, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), timing device (watch with second hand), dive knife or cutting tool, pencil, underwater slate, visual surface signaling device, audible signaling device (both surface and underwater) PADI RDP, eRDPml, logbook, two dive lights (one primary and one backup), non-rebreather and a pocket mask.**

Note: **Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.**

**Unlike most PADI Divemaster courses that require only 6 dives (some facilities only conduct lake dives), at Sea Experience Diving Schools you will get 12 ocean boat dives!*

This program meets the requirements for students to take any tests or exams required in this curriculum

Phase 3 – Open Water Scuba Instructor

94.5 Clock Hours

Phase 3 of the Sea Experience Diving Schools Career Development Curriculum is the Open Water Scuba Instructor course. This program begins with the PADI Instructor Development Course (IDC) which includes the PADI Assistant Instructor and the PADI Open Water Scuba Instructor. This phase also includes EFR/CFC Instructor and the PADI Instructor Examination.

There are also optional Instructor Exam Theory Preparation Workshops available for those who would like additional instruction. This Phase can be entered at any level provided the student meets the entry requirements. After successful completion of the PADI Instructor Exam (IE), PADI will award a candidate its Open Water Scuba Instructor certification.

Objective: The objective of Sea Experience diving Schools Phase 3, Open Water Scuba Instructor is to take a certified Divemaster and elevate their certifications and diving skills to the PADI Instructor level. This program puts these students on a direct path to working in the diving industry as an Instructor.

Entrance/Admission Requirements: 18 years old, PADI EFR/CFC Certification and completion of knowledge reviews. Proof of PADI Openwater, Advanced Openwater, Rescue and Divemaster or the equivalent certification from another training organization. Be a certified Openwater Diver for at least 6 months, certified in First Aid and CPR training within the last 24 months (PADI EFR/CFC is recommended). Have a PADI Diving Medical Statement signed by a physician (MO or DO) and dated within the previous 12 months. Proof of 100 dives showing logged dives in Deep, Night and Navigation. Have Diving Accident Insurance (DAN is recommended)

Phase 3 Open Water Scuba Instructor Program consists of three components:

EFRI/CFCI-3: *PADI Emergency First Response Instructor/CFCI	10.5 Clock Hours	1 ½ Days
IDC-3: PADI Instructor Development Course	84 Clock Hours	8 ½ Days
PADI Instructor Examination		2 Days

**This course covers adult, child and infant skills and will certify you as both EFR and CFC Instructor.*

PADI Emergency First Response Instructor /CFCI EFRI/CFCI-3

10.5 Clock Hours

The PADI Emergency First Response (EFR) and Care for Children (CFC) Instructor Course is a program which instructs candidates how to organize, instruct, market and promote the EFR and CFC courses. This course emphasizes hands-on skills, practice demonstrations and problem solving.

Prerequisites: Applicant must be current with CPR, First Aid, AED and Care for Children training.

Minimum Age: 18 years of age.

Certification: PADI Emergency First Response/Care for Children Instructor.

PADI Instructor Development Course *84 Clock Hours* IDC-3

The complete PADI Instructor Development Course (IDC) is a 12-day program designed to prepare qualified candidates to become PADI Instructors. The IDC is divided into two distinct segments. The first is the five-day Assistant Instructor (AI) course and the second is the five day Open Water Scuba Instructor (OWSI) course. Together the two courses encompass the entire IDC. Both courses must be completed before attending the PADI Instructor Exam (IE). Each segment can be scheduled as a stand-alone course or completed at once.

Prerequisites: **Proof of PADI Open Water, Advanced, Rescue and Divemaster or equivalent certifications from another training organization. Be a certified Open Water Diver for at least 6 months. Certified in First Aid and CPR training within the last 24 months (PADI EFR/CFC is recommended). Have PADI Diving Medical Statement signed by a physician (MD or DO) and dated within the previous 12 months. Proof of at least 100 logged open water scuba dives. Logged proof of Deep, Night and Navigation diving.**

Minimum Age: **18 years of age.**

Completion Requirements: Proof of 100 logged dives is required. Note: candidates who are not PADI Divemasters are also required to pass the diver rescue skills assessment.

Certification: **PADI IDC Application Fee - \$209 included in the phase pricing.**

Number of Dives: **5**

Required Equipment: **Masks, fins, snorkel, wetsuit and dive gloves, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), timing device (watch with second hand), dive knife or cutting tool, pencil, underwater slate, visual surface signaling device, audible signaling device (both surface and underwater) PADI RDP, eRDPml, logbook, two dive lights (one primary and one backup), non-rebreather and a pocket mask, wreck reel and lift bag (recommended).**

Note: **Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.**

IMPORTANT NOTE:

All IDC Candidates are required by PADI Standards to have the most current copies of all diver level manuals including Open Water, Advanced, Rescue and Divemaster. These books are NOT included in the cost of this course.

PADI Instructor Examination

The PADI Instructor Examination (IE) is scheduled on Saturday and Sunday in Fort Lauderdale, immediately following Sea Experience DIVING Schools' IDC. The IE is a standardized, objective evaluation conducted by Instructor Examiners from PADI Headquarters. Therefore, it has no affiliation with Sea Experience Diving Schools or any other Instructor Development Center. Only PADI Headquarter Instructor Examiners are involved.

Instructor candidates must complete the following exams and perform the following skills:

Classroom

- Five-part theory exams on Physics, Physiology, Equipment, Skills & Environment and the PADI Recreational Dive Planner (tables & eRDPml versions) – multiple choice, true/false, 12 questions on each topic exam.
- PADI Systems, Standards & Procedures exam – multiple choice, open book, 50 question exam.
- Perform and pass one Knowledge Development Prescriptive Teaching Presentation.

Pool

- Demonstrate a 5 skills circuit as detailed by the Examiners.
- Perform and pass one Confined Water Teaching Presentation.

Open Water

- Perform an Unconscious Diver at the Surface rescue to demonstrate quality.
- Perform one Open Water Teaching Presentation with 2 skills combined.

The Instructor Candidate must successfully complete all components of the PADI IE in order to earn the PADI Open Water Scuba Instructor (OWSI) certification. As an OWSI, one is qualified to teach various experience programs, the Open Water, Advanced Open Water, Rescue and Divemaster courses in addition to the Peak Performance Buoyancy and Project Aware specialty courses.

PADI Instructor Exam Fee - \$825 – included

Required Equipment: Masks, fins, snorkel, wetsuit and dive gloves, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), timing device (watch with second hand), dive knife or cutting tool, pencil, underwater slate, visual surface signaling device, audible signaling device (both surface and underwater) PADI RDP, eRDPml, logbook, two dive lights (one primary and one backup), non-rebreather and a pocket mask, wreck reel and lift bag (recommended).

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.

This program meets the requirements for students to take any tests or exams required in this curriculum.

The balance of this page has been left blank intentionally for the convenience of prospective students to make notes when needed.

PADI Instructor Ala Carte

94.5 Clock Hours

PADI Instructor Ala Carte, part of the Sea Experience Diving Schools Career Development Curriculum is the Open Water Scuba Instructor course. This program begins with the PADI Instructor Development Course (IDC) which includes the PADI Assistant Instructor and the PADI Open Water Scuba Instructor. This phase also includes EFR/CFC Instructor and the PADI Instructor Examination.

There are also optional Instructor Exam Theory Preparation Workshops available for those who would like additional instruction. This program can be entered at any level provided the student meets the entry requirements. After successful completion of the PADI Instructor Exam (IE), PADI will award a candidate its Open Water Scuba Instructor certification.

Objective: The objective of Sea Experience Diving Schools PADI Instructor Ala Carte, Open Water Scuba Instructor is to take a certified Divemaster and elevate their certifications and diving skills to the PADI Instructor level. This program puts these students on a direct path to working in the diving industry as an Instructor.

Entrance/Admission Requirements: 18 years old, PADI EFR/CFC Certification and completion of knowledge reviews. Proof of PADI Openwater, Advanced Openwater, Rescue and Divemaster or the equivalent certification from another training organization. Be a certified Openwater Diver for at least 6 months, certified in First Aid and CPR training within the last 24 months (PADI EFR/CFC is recommended). Have a PADI Diving Medical Statement signed by a physician (MO or DO) and dated within the previous 12 months. Proof of 100 dives showing logged dives in Deep, Night and Navigation. Have Diving Accident Insurance (DAN is recommended)

PADI Instructor Ala Carta Program consists of three components:

EFRI/CFCI-3: *PADI Emergency First Response Instructor/CFCI	10.5 Clock Hours	1 ½ Days
IDC-3: PADI Instructor Development Course	84 Clock Hours	8 ½ Days
PADI Instructor Examination		2 Days
<i>*This course covers adult, child and infant skills and will certify you as both EFR and CFC Instructor.</i>

This program meets the requirements for students to take any tests or exams required in this curriculum.

IDC Staff Instructor Course

119.5 Clock Hours

The Staff Instructor program is a 14-day course during which PADI Instructors learn to teach PADI Assistant Instructor and to eventually teach the PADI Instructor course. This course is a step toward the goal of becoming a PADI Course Director which is the highest achievement in PADI's certification hierarchy.

Objective: The IDC Staff Instructor course prepares candidates to teach the PADI Assistant Instructor course and to staff PADI Instructor Development Courses. The training furthers teaching abilities and develops candidate's evaluation and counseling skills through independent study, classroom sessions and guided evaluation training.

Entrance/Admission Requirements: 18 years old, teaching status of padi master scuba diver certification and PADI emergency first responder instructor certification. Have a PADI Diving Medical Statement signed by a physician (MO or DO) and dated within the previous 12 months.

Phase 4 – MSDT - Resort Operations Specialist 182.5 Clock Hours

Phase 4 of the Sea Experience Diving Schools career development curriculum is PADI Oxygen Provider Instructor PADI Master Scuba Diver Trainer prep (includes 5 PADI specialty instructor certifications) and Resort Operations Specialist (includes 4 PADI specialty instructor certifications, 1 DSAT certification and 4 PSI certifications). Up to 23 ocean boat dives will be conducted throughout this phase. At the conclusion of this phase the student will meet the qualifications to apply for MSDT once PADI's requirements are met.

Objective: Sea Experience Diving Schools Phase 4, MSDT/Resort Specialist was developed to take the PADI Instructor and give them an advantage in the diving job market and to help them become successful in their scuba career. Since potential employers are looking for the most qualified candidates, this program offers our students one of the most comprehensive continuing education programs in the industry.

Entrance/Admissions Requirements: 18 years of age; DAN Membership, Current DAN Oxygen Provider, Active Status Open Water Scuba Instructor, Assistant Instructor or Divemaster with CPR & First Aid Instructor ratings. Current CPR Instructor, documentation of current First Aid training (Instructor level recommended), must be a renewed PADI Assistant Instructor or PADI Instructor or complete an IDC or OWSI course within the last 12 months. Certified as a PADI Enriched Air (Nitrox) diver or hold a qualifying certified training within the last 24 months.

Phase 4 MSDT Resort Specialist Program consists of three components:

POPI-4 :	PADI Emergency Oxygen Instructor	20 Clock Hours	2 Days
MSDT-4:	Master Scuba Diver Trainer Prep	34.5 Clock Hours	4 Days
ROS-4:	Resort Operations Specialist	128 Clock Hours	15 days

PADI Emergency Oxygen Instructor

20 Clock Hours

POPI-4

PADI Emergency Oxygen Instructor – The remote location of most dive sites, whether a few hours from shore or days from civilization, requires more advanced care than that offered by traditional rescue training. In addition, dive leaders need to know how to deal with minor marine life injuries, a subject rarely addressed in traditional first aid courses. To respond to this need for practical knowledge the PADI Emergency Oxygen Instructor program includes the following instructor level credentials.

Emergency Oxygen for Scuba Diving Injuries Instructor – The PADI Emergency Oxygen Instructor course is a one day program which prepares dive leaders to teach the PADI Emergency Oxygen Provider course. Candidates will receive the PADI Emergency Oxygen Instructor Specialty.

PADI Emergency Oxygen Instructor – Learn how to recognize the warning signs of sudden cardiac arrest and administer first aid using basic life support techniques and AED's. Managing shock and external bleeding are other skills covered that can help save lives.

The knowledge and skills acquired will include:

- CPR & use of AEDs
- Neurological assessments
- Decompression illness and stroke
- Atmospheric gases
- Respiration and circulation
- Oxygen safety
- Oxygen first aid for scuba diving injuries
- Envenomation from marine life
- Traumatic injuries
- Life threatening complications
- Seafood poisoning
- Avoidance of marine life injuries

Prerequisites: Be an active Open Water Scuba Instructor, Assistant Instructor or Divemaster with a current CPR and First Aid Instructor rating.

Minimum Age: 18 years of age.

Certifications:

- PADI Emergency Oxygen Instructor.

***NOTE: Instructor recognition is given to individuals who hold the above instructor-level certifications.**

Master Scuba Diver Trainer Prep

MSDT-4

34.5 Clock Hours

The Master Scuba Diver Trainer Prep program is five PADI Specialty Instructor courses conducted in a fully integrated manner over four days. The MSDT course is designed to train instructors in how to organize market and conduct the following PADI Specialty Diver Courses:

1. PADI Search and Recovery Instructor
2. PADI Deep Diver Instructor
3. PADI Enriched Air Instructor
4. PADI Underwater Navigator Instructor
5. PADI Night Diver Instructor

The course involves academic presentations and 7 ocean boat dives. Candidates are shown how to conduct training dives, briefings and scenarios. Subjects include wreck or reef mapping search and recovery techniques, knot tying, lift bag, use of wreck reels, navigation skills and techniques, enriched air diving considerations, dive planning and techniques, night diving techniques and deep diving considerations.

Prerequisites: Applicants must be a PADI Instructor or have attended a PADI IDC within the last 12 months. The applicant must be able to show proof of at least 10 logged dives in each specialty diving area prior to submitting his/her Specialty Instructor application to PADI. This requirement may be met after the MSDT program.

Minimum Age: 18 years of age.

Certification:

- 5 PADI Specialty Instructor ratings

NOTE: The PADI MSDT Fee of \$93.00 is NOT included in the Phase III tuition.

Number of Ocean Boat Dives: 7

Required Equipment: Masks, fins, snorkel, wetsuit and dive gloves, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), timing device (watch with second hand), dive knife or cutting tool, pencil, underwater slate, visual surface signaling device, audible signaling device (both surface and underwater) PADI RDP, eRDPml, logbook, two dive lights (one primary and one backup), wreck reel and lift bag, 30cf stage cylinder (recommended).

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.

Resort Operations Specialist

ROS-4

128 Clock Hours

The Resort Operations Specialist program was written and developed exclusively for Sea Experience Diving Schools by Dr. Alex Brylske – one of the world’s foremost experts on diver education and award-winning authority on sustainable marine tourism. Resort Specialist is Sea Experience Diving Schools’ “flagship” program and is the only professional development course in the diving industry that is both proprietary and trademarked. Only at Sea Experience Diving Schools can you earn this valuable training and certification. Based on extensive resort operations job analysis and frequent feedback from employers at the world’s top dive resorts, the Resort Operations Specialty curriculum is continuously updated. The revisions ensure that Resort Operations Specialist graduates are among the best trained in the world and can meet the challenges of the ever-changing industry and consumer.

ECO PRO: Ecology Professional (ECO PRO) is the component of the ROS program that prepares professional divers to be ambassadors for the environment. It is comprised of seven modules of instruction (see modules 1-7 below) that combine for 48 clock hours.

Module #1: Assessing Coral Reef Health: The Benthos & Invertebrate Community (12.0 hours)

- Identify the major invertebrate organisms found on Caribbean coral reefs and describe their ecological role.
- Identify characteristics of coral reef predation and what organisms are responsible.
- Identify signs of coral bleaching and diseases and what indicators are used to distinguish the two conditions.

Module #2: Assessing Coral Reef Health: Benthic Survey Methods (8.0 hours)

- Identify 10 substrate types that are indicative of coral reef health or degradation.
- Describe the “point-intercept transect” as a method to determine substrate cover.

Module #3: Assessing Coral Reef Health: Fish Community Ecology (11.0 hours)

- Describe the major fish “guilds” and their respective members.
- Identify the 50 most common fishes found on Caribbean coral reefs.
- Describe the three hunting strategies used by predators.
- Describe the role of “cleaning stations.”
- Describe how morphology is understanding the morphology of a fish can provide clues to its lifestyle and guild membership.

Module #4: Coral Reef Restoration: Science and Practice (4.0 hours)

- Describe current restoration technologies from their inception to the current state-of-the-art.
- Describe the goals and strategies used by the various programs throughout the world.
- Explain how scientists and recreational divers collaborate to increase the effectiveness and efficiency of coral reef restoration.

- **Module #5: Sharks in Depth—Ecology, Conservation & Ecotourism (8.0 hours)**

- Explain why sharks are vital components of a healthy marine ecosystem.
- Describe how humans benefit from sharks.
- Describe the major conservation issue affecting sharks worldwide.
- Explain how shark tourism and how it can be a tool for conservation.
- Describe shark diving best practices and guidelines for safely observing sharks in the wild.

Module #6: Perfecting Customer Experience: The Art and Science of Coral Reef Interpretation (4.0 hours)

- Explain the difference between environmental education and environmental interpretation.
- Explain why many environmental education programs fail.
- Describe methods for turning divers into advocates for ocean conservation.
- List and explain the five essential components of effective environmental interpretation.

Dive Shop Operations: This section has 3 components. All aspects of diving, from training to charters, to air fills to repair, all filter through the dive shop and therefore it is essential that all dive professionals have an understanding and working knowledge of the dive shop.

Introduction to D360: D360 helps dive store owners and employees increase profits and commissions with greater customer satisfaction. D360 is the software choice of many PADI Dive Centers and Resorts.

Resort Specialist students will be better prepared to work at Dive Shops that use D360 as their Point-of-Sale software. The knowledge and skills acquired will include:

Features and benefits of D360 as a Point-of-Sale System

- How D360 links to PADI. For example, processing certification cards online
- How D360 can be used for effective and targeted marketing using emails and newsletters
- An introduction to D360, a Point-of-Sale tool

Equipment Specialist: Whether your job involves the use, retail sale or repair and maintenance of scuba equipment, knowing the theory and operation of the equipment used in our industry is a vital key for your success. The knowledge and skill acquired will include:

- Develop practical knowledge of the theory, principles and operation of the diving equipment
- Perform routine, recommended care and maintenance procedures
- Basic field repair techniques
- Preparing equipment for sale

Increase your earnings: Diving is an equipment intensive sport, and the knowledgeable professional must be able to council students and customer alike in proper equipment selection by considering their needs and budget. The knowledge and skills acquired will include:

- Assessing the diver's equipment needs
- Proper sizing and fitting
- Knowing which features are of benefit and importance to students and customers

Charter Operations: Snorkel and Scuba Charters are the backbone for many dive shops and for the staff and crew they are the busiest but most exciting part of the instructor's day. The knowledge and skills acquired will include:

Boat Diver Specialty Instructor: The purpose of the PADI Boat Diver Specialty course is to familiarize divers with the skills, knowledge, planning, organization, procedures, techniques, problems, hazards, and enjoyment of diving from a boat. Resort Specialty will learn how to organize and conduct the PADI Boat Diver Specialty Course.

Digital Underwater Photography Instructor: Digital Underwater Photography training will expand your marketability, your earning potential, and add enjoyment to your resort-based employment. The knowledge and skills acquired will include:

- Assembling and testing camera equipment prior to a dive
- Practice getting good color as appropriate to the camera system using white balance, flash, filters and wide angle
- Demonstrate care for the equipment while taking picture underwater
- Evaluating exposure, sharpness and composition
- Downloading and editing digital pictures

Increase your tips: it is common for divers to tip dive and boat crew after an enjoyable experience. Resort Specialist students will learn valuation knowledge and techniques to help increase their tips by enhancing the diver's experience. The knowledge and skills acquired will include:

- Assisting divers with rental equipment and weight selection
- Welcoming divers on board
- Seat assignments, understanding diver, buddy and group dynamics
- Enhancing the diver's experience through effective guiding and increasing personal service during surface interval

Wreck Diver Specialty Instructor: Learn how to use wreck reels to penetrate wrecks. This valuable training will aid in dive guiding, looking for missing divers and providing guidance to customers on the benefits or wreck diving to the risks involved with wreck penetration.

- **In-Service Rescue Scenario Practice:** Candidates gain confidence in managing a rescue as they work alongside the Sea Experience crew to practice real-time rescues in the ocean. These scenarios may include man overboard drills, panicked diver at the surface to retrieving an unconscious diver at depth and concluding with a boat egress with oxygen administrations and CPR.

Fill Station Operations: According to the U.S. Department of Transportation, 90% of all high-pressure cylinder failures occur during the filling process. Furthermore, the data shows that a major cause of cylinder failure is the lack of training, knowledge, and experience on the part of the fill operators. Fill station operators are the primary line of defense in preventing unsafe cylinders returning to service; and learning how to fulfill this role is precisely what students learn in this training segment. The knowledge and skills acquired will include:

PSI Visual Cylinder Inspector: The PSI Visual Inspector Course is conducted over one day and covers a wide variety of topics that will help identify problems developing in cylinders before they become an explosive danger. Students receive hands-on training that qualifies them to inspect cylinders technically and visually for damage and defects during the interval between hydrostatic re-tests.

PSI Eddy Current Technician: Eddy Current testing is a powerful edition to visual cylinder inspection. However, many in the industry continue to use such devices on the wrong cylinders or fail to operate the equipment properly. This course provides Visual Cylinder Inspectors with the added training to know when and how to conduct proper Eddy Current Tests of SCUBA and SCBA cylinders in addition to hands-on experience with Eddy Current devices.

PSI Valve Repair Technician: This course provides a broad overview of valve types, valve repair and valve care. Students will gain experience by servicing multiple valves and in turn be prepared to service more than just the cylinder.

PSI Oxygen Cylinder Cleaning Technician: Cylinders and valves intended for Enriched Air Nitrox (EANx) service require special cleaning and inspection procedures. This course addresses the handling, inspection and cleaning of EANx cylinders.

Compressor Theory and Operations: Air systems are essential to dive operations. While resort operators do not expect to hire expert compressor technicians, they value employees who can properly maintain and operate these expensive and vital systems. The advanced air-system knowledge and skills acquired during resort Specialist include:

- An overview of compressor and filtration function
- Air fill station design and operation
- Checking and changing lubricants and filters
- Power start up procedures
- Cylinder filling procedures

DSAT Gas Blender: The Diving Science and Technology (DSAT) Gas Blender course will instruct the diver to completely mix and blend Nitrox cylinders using formulas and computer-based methods currently available. The course is divided into knowledge development and practical application sections. The knowledge and skills acquired will include:

- Oxygen; use and risks
- Helium blending theory
- Use of oxygen compatible air
- Gas blending Methods
- Nitrox blending

Resort Operations Specialist: This is where the theory is put into practice. During this portion of the course students will have multiple opportunities to serve as a mate and Resort Divemaster/Instructor on board our custom-built dive boats, learn inside the dive shop, and assist in an actual class.

Students will log hours interacting with actual customers while gaining invaluable experience on the water, in the shop, filling cylinders, assisting in classes, and many other practical techniques to ensure an enjoyable and safe experience for the customer.

NOTE: Students do NOT take the place of paid crewmembers. Student learning is conducted always working under staff supervision.

Prerequisites: Applicant must be certified as a PADI Divemaster, Assistant Instructor or Instructor (no equivalent ratings apply). Additionally for each Specialty except Equipment Specialist, the applicant must be able to show proof of at least 10 logged dives in each specialty diving area prior to submitting his/her Specialty Instructor application to PADI. This requirement may be met after the Resort Specialist program.

Minimum Age: 18 years of age.

Required Equipment: Masks, fins, snorkel, wetsuit and dive gloves, BCD with low pressure inflator, single hose regulator with alternate-air-source, submersible pressure gauge, depth gauge, compass, bottom timing device (dive computer preferred), timing device (watch with second hand), dive knife or cutting tool, pencil, underwater slate, visual surface signaling device, audible signaling device (both surface and underwater) PADI RDP, eRDPml, logbook, two dive lights (one primary and one backup), wreck reel and lift bag, 30cf stage cylinder (recommended).

Note: Scuba tanks will be provided at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50 is required to cover possible loss.

Total Clock Hours	128

This program meets the requirements for students to take any tests or exams required in this curriculum.

SELF-RELIANT DIVER/TEC 40 DIVER PROGRAM

48 CLOCK HOURS

The purpose of the Self-Reliant Specialty course is to recognize and accept the role of the buddy system and its contributions to diver safety while identifying and developing self-reliant and independence while diving. The TEC 40 sub course of the DSAT TEC Diver course is a limited entry level technical diving program. It bridges the gap between recreational diving and full technical deep decompression diving. Certified TEC 40 Divers are qualified to make limited decompression dives using equipment that is marginally more extensive than that used in mainstream recreational diving.

Objective: The objective of Sea Experience Diving Schools Self-Reliant Diver/Tec Diver 40 courses will develop the skills of planning and carrying out dives without a partner when preferred or necessary. To also train students to prepare for and respond to reasonably foreseeable emergencies that may occur with TEC 40 limits.

Self-Reliant Diver/TEC 40 Diver program is to sharpen skills of diving self-reliance, making the diver a stronger partner in a diver pair team. It will qualify the student to make limited decompression dives at a level that bridges recreational diving and technical diving. Students will be trained in knowledge, procedures and motor skills required for decompression diving within the limitations of the TEC 40 certification. This program will assure the understanding and acknowledge the hazards and risks associated with this level of TEC diving and TEC diving in general. To train students to prepare for and respond to reasonably foreseeable emergencies that may occur within TEC 40 limits. To also lay the foundation for continuing training as a full technical diver and to continue training as a full technical diver. Students completing this program will receive a Self-Reliant Diver certification and a TEC 40 Diver Certification from PADI. (if a student is already an instructor, they will also receive a Self-Reliant Instructor Certification).

Entrance/Admission requirements: 18 years old, PADI Advanced Open Water or a qualifying certification from another training organization, PADI Enriched Air Diver or a qualifying certification from another training organization, PADI Deep Diver or proof of 10 dives to 30 meters/100 feet, 30 logged dives (10 with Enriched Air, 7 deeper than 30 meters/100 feet).

WHAT WILL MY SCUBA CAREER TRAINING COST?

Total Immersion Program **\$14,999**

Deposit required: **\$ 3,000**

This complete package includes:

- PADI Open Water Diver
- PADI Advanced Open Water Diver
- PADI Master Scuba Diver
- PADI Emergency First Response/Care for Children
- PADI Rescue Diver
- PADI Oxygen Provider
- PADI Divemaster (PADI fee of \$134.00 included)
- PADI Enriched Air Diver
- All course tuitions, required books, training materials
- All PADI and DAN application fees
- 60 Dives
- Professional level equipment package

Phase 1 Specialty Diver **\$ 3,499**

Deposit required: **\$ 1,000**

This complete package includes:

- PADI Open Water Diver
- PADI Advanced Open Water Diver
- PADI Master Scuba Diver
- 30 Dives

Phase 2 – Professional Divemaster **\$ 3,499**

Deposit required: **\$ 1,000**

This complete package includes:

- PADI Emergency First Response/Care for Children
- PADI Rescue Diver
- PADI Emergency Oxygen Provider
- PADI Divemaster (PADI fee \$134.00 included)
- PADI Enriched Air Diver
- 20 Dives

Divemaster **\$1,999**

Deposit required: **\$ 500**

This complete package includes:

- PADI Divemaster (PADI fee \$162.00 included)
- 12 dives

Phase 3 – Open Water Scuba Instructor **\$4,999**

Deposit required: **\$ 1,500**

This complete package includes:

- The PADI Instructor development Course (IDC) (PADI application fee \$235.00 included)
- PADI Emergency First Response/Care for Children Instructor (PADI fee \$146.00) included)
- 5 dives
- Career Placement Service
- PADI Exam (fee \$825.00 included)

PADI Instructor Ala Carte **\$1,400**

Deposit required: **\$ 500**

This package includes:

- The PADI Instructor development Course (IDC) (PADI application fee \$235.00 not included)
- PADI Emergency First Response/Care for Children Instructor (PADI fee \$146.00 not included)
- 5 dives
- Career Placement Service
- PADI Exam (fee \$825.00 not included)

IDC Staff Instructor **\$1,799**

Deposit required: **\$ 500**

This complete package includes:

- The PADI Instructor Development Course Staff Instructor Course and Materials (PADI upgrade fee \$162.00 included)

Phase 4 – MSDT Resort Specialist **\$7,999**

Deposit required: **\$ 2,000**

This complete package includes:

- 1 PADI Emergency Oxygen Instructor ratings
- 9 PADI Instructor ratings (PADI fees per instructor rating \$79.00 each, included)
- 4 PSI Certification
- 1 DSAT Gas Blender Certification
- ECO Pro
- 23 dives
- Career Placement Service

Self-Reliant Diver/TEC 40 Diver **\$ 2,099**

Deposit required: **\$ 500**

This complete package includes:

- Self-Reliant Diver certification (PADI fees included)
- TEC 40 Diver certification (PADI fees included)
- Books and materials required included.

Administrative Information

Administration and Faculty

Bill Cole	CEO & PADI Course Director #10728
Robert Meadows	Director of Training – PADI Course Director, #16799
Dianne “Jayne” Haas	Administrator
Colin Taylor	PADI Course Director #30769
Marcy Torres	PADI Master Instructor 237400

Sea Experience, Inc. dba Sea Experience Diving Schools is a corporation under the State of Florida. Owned and Operated by Bill and Susan Cole.

Attendance Policy: Due to the disciplined nature of all training courses, unexcused absences will not be allowed, and will be considered grounds for dismissal. Absences due to illness or emergencies must be approved by the Director of Training. All training missed due to excused absences, extracurricular work or a failing grade must be completed and/or at a successful grade prior to the issuance of any certificate. The student will be charged at a rate of \$50.00 per contact hour (above and beyond the regular tuition) for all such makeup work.

Tardiness will be considered a serious breach of rules. Therefore, lateness on two occasions will result in a formal warning; lateness on the third occasion will result in dismissal. Students who are dismissed or failing to meet certification requirements due to unsatisfactory performance will be required to repeat the appropriate course in its entirety. If extended absences result in failure completing certification requirements in the allotted time, provision for completion may be made with the approval of the Director of Training and at which time the additional cost of \$35.00 per hour would apply.

Course Dates: The Course dates are listed in the Career Development Curriculum Schedule for the respective calendar year. Enrollment is on-going throughout the calendar year. Courses are not subject to cancellation due to the number of students enrolled.

Daily Schedule: The specific schedule for all courses will be dependent on factors such as weather and logistical considerations. However, you should arrive at the program for the following schedule and avoid any conflicting plans or commitments during the effective dates of your course. The schedule listed below is typically Monday through Sunday.

8:00-11:30	Instruction	Office Hours:	8 am – 5 pm
11:30-12:30	Lunch		Monday - Sunday
12:30-4:00	Instruction		
4:00-5:00	Break		
5:00-7:00	Instruction		

Sea Experience Diving Schools is closed on Christmas day. Schedule is subject to change without notice due to weather conditions. Our yearly class schedule is attached to this catalog as an addendum.

All Sea Experience Diving Schools/PADI courses are performance-based. To be certified, you must demonstrate mastery of all performance requirements specified for a particular course. These requirements are detailed in the appropriate section of the PADI Instructor Manual. If you desire, a copy of this manual may be purchased from Sea Experience Diving Schools or directly from PADI International Headquarters in Rancho Santa Margarita, California. In addition, knowledge assessments will take place in the form of various standardized, objective written exams. During your Rescue Diver training, you will be given a single comprehensive exam. During Divemaster training, you will be given a battery of 8 exams. During the PADI IDC you will have to pass the “PADI Instructor Pre-assessment Exam” as a tool to determine your readiness to attend the PADI IE. You will also have to complete a non-timed 800 yard/meter snorkel.

Performance Levels: During all skill performances, you will be assessed on the following basis:

Score: 5	Description: Excellent Interpretation
Denotes demonstration quality, skill conducted in a calm, controlled manner without any problems or difficulties.	
Score: 4	Description: Good Interpretation
Denotes a high degree of competency and control, though lacking some of the same fluidity and demonstration quality as a 5	
Score: 3	Description: Average
Denotes the skill is conducted in a calm, controlled manner with no significant problems. Lacks the polish and control of a 4.	

Score: 2 Description: Below Average
Denotes the skills which, even though successfully completed, demonstrated significant problems or errors.
Score: 1 Description: Unacceptable
Denotes inability to complete the skill, or performance so poor that competence cannot be inferred.

Scores on all required written examinations will be interpreted as follows:

100-90%	A
89-80%	B
79-75%	C (minimum of 75% is required to pass)
74-65%	D (retest required)
64% & under	F (retest required)

Additionally, an oral review of all exams will be conducted to ensure that even those passing the exam have a full understanding of the items missed. Students will receive continual input and critique on their performance during the course. Counseling will be conducted by the Director of Training and other appropriate staff members. Students who demonstrate unsatisfactory progress will be counseled to withdraw from the course. All student records will be available for review by the students. Students dismissed for unsatisfactory academic performance or gross violation of school rules may be allowed to re-enroll in subsequent courses only if prior approval is given by the Chief Executive Officer. *Student Services: Students needing personal counseling can see the Director Training. The Director of Training will refer them to outside sources as needed.*

Conduct: All students are expected to always conduct themselves in a professional manner (both in and out of class). Students will be subject to immediate dismissal for the following violations of conduct:

1. Possession or consumption of alcohol, or narcotics during training activities.
2. Abusiveness towards other students or staff.
3. Violations of state, local or federal laws.
4. Destruction or theft of school property.
5. Gross violations of diving safety practices.

To reserve a space in the course, the appropriate deposit must accompany the signed "Enrollment Agreement". Once accepted: your deposit will be applied towards tuition. The balance of tuition is due, no later than the first day of class. Boat fees and use of tanks (air, Nitrox is extra) and weight belts are included in your tuition. See enclosed form contained in your information package for required deposits and tuition.

Method of Payment: The Deposit is due at the time of signing the Enrollment Agreement and the balance of tuition is required prior to attending the first class. Forms of acceptable payment for tuition deposit include money orders, cashier's check, travelers check, (made out to Sea Experience Diving Schools) Master Card, VISA, American Express, Discover, or cash. All balances are due before class begins. Personal checks will be accepted for deposit only, if received at least two weeks prior to the start of the course.

Cancellations and Refunds: Should a student/applicant cancel his/her enrollment or be terminated by the School for any reason, all refunds will be made according to the following refund schedule:

1. All monies will be refunded if the School does not accept the application or if the Student cancels within three (3) business days after signing the Enrollment Agreement. An applicant not requesting cancellation by the scheduled starting date will be considered a Student.
2. Request for cancellation must be made in writing to the School prior to the scheduled starting date. Official date of termination is the last day of the actual attendance unless written notice is received by the School.
3. All refunds will be made within thirty (30) days of cancellation or termination.
4. Cancellation after three (3) business days from signing the Enrollment Agreement but before instruction begins will result in a refund of all tuition monies received by Sea Experience Diving Schools with the exception of the required deposits but the amount withheld will not exceed \$125.00. The cost of any books purchased from Sea Experience that the student may wish to return will be refunded providing they are unopened and can be resold as new. The books must be returned within three (3) days of signing the Enrollment Agreement in order to receive the full refund. **TIP students only: please be aware that once you are issued the equipment included with this program it cannot be returned. If you leave the program for any reason you will be financially responsible for the equipment issued at the cost of \$7,900.00**
5. Students voluntarily terminating, and/or those dismissed by the school after three (3) business days through 50% completion of the program will receive a refund pro-rated based on the number of hours completed to the total program hours. However, there will be **no refunds issued after completion of more than 50%.**

Student Recourse/Complaint Policy:

1. If a disciplinary action has been taken against a student and the student disagrees with that action, they may go to the Director of Training unless the Director of Training is the party invoking the disciplinary action. If that is the case, the Chief Executive Officer will make the final decision regarding said action after reviewing all relevant information. Students will be notified of decisions within 7 business days.
2. If an academic grade is given to a student and that student disagrees with said grade, they may go to the Director of Training to dispute the grade. The final decision rests with the Director of Training unless the Director of Training is the party invoking the academic grade. If that were the case the Chief Executive Officer would make the final decision to said grade after reviewing all relevant information.
3. If the student is not satisfied with the results, they may contact the Commission for Independent Education*

Books and Instructional Materials: The Sea Experience Diving Schools Phase programs include the required books and materials for that course. Ala carte courses do NOT include books and fees and are additional to the tuition costs. You are required to have the most current edition of all student materials for your class. You may order all and any of the required books and materials through Sea Experience Diving Schools.

Required Diving Equipment: (if the student must purchase equipment the estimated cost of the gear listed below may be \$2,000.00 or more. This cost is subject to change.

the following equipment is required for all courses:

- Mask, fins and snorkel
- Wetsuit (A 3mm shortie for the summer, 3-5mm farmer John or jumpsuit for the winter, hoods and gloves are optional)
- BCD with low-pressure inflator system
- Single hose regulator with alternate-air-source device
- Two tanks (see note below)
- Weight belt & weights – soft weights only (see note below)
- Dive knife or cutting tool
- Pencil and underwater slate
- Primary underwater light
- Back-up underwater light
- Wreck diving reel
- Lift bag (optional)

NOTE: Equipment listed above is approximately \$2,000.00 this cost can fluctuate according to student choices of brands. Scuba tanks will be supplied at no extra charge. Weight belts and weights will also be provided at no charge; however, a deposit of \$50.00 is required to cover possible losses.

Sea Experience Diving Schools do not provide housing for students. However, several hotels in the area offer special rates for Sea Experience Diving Schools students. Please see the website for details.

Student Records: Student records are permanently retained by Sea Experience Diving Schools and are available to students upon individual request. Student records will be provided to potential employers and other only if written permission is provided by the student. Transfer of credit for training to other institutions is at the discretion of the accepting institution.

Placement Assistance: Placement assistance is available to graduates of Sea Experience Diving Schools at no additional charge. However, we cannot guarantee employment. Sea Experience Diving Schools will be posting graduates resume's on PADI's on-line employment site. Additional details on our Career Placement Service can be obtained by calling Sea Experience Diving Schools.

Financial Assistance: At this time there is no financial assistance available.

Enrollment: To apply, submit all pages of the "Enrollment Agreement" and forward along with the required deposits to Sea Experience Diving Schools. Please include photocopies of all appropriate prerequisite certifications. Enrollment is limited and advanced deposits are required to secure your place in the program. You are required to bring with you to registration, the completed PADI Medical Statement signed by a doctor (MD or DO) and it has to say you are fit to dive and be dated within the last 12 months. You should also bring photocopies of your logbook or other proof of dive experience and all certification cards. All applicants to Sea Experience Diving Schools Career Development Programs must be 18 years of age by the start of the course. All applicants of Phase training or individual course of Divemaster or higher, must have Diving Accident Insurance from DAN or other agency. No advanced standing or waiver of prerequisites will be made for prior experience.

Total Immersion Program: **18 years old and have a PADI Diving Medical Examination form signed by a physician (specifically an MD or a DO) stating fitness to dive and dated within the previous 12 months. A full set of gear is included with tuition.**

Phase One – Specialty Diver: **18 years old and have a PADI Diving Medical Examination form signed by a physician (specifically an MD or a DO) stating fitness to dive and dated within the previous 12 months.**

Referral of Training/Credit Transfer: **Applicants transferring training must do so following the formal PADI Referral process. Any applicant with documentation (signed by the original instructor) verifying which segments of training have been successfully completed within the last 12 months and that applicant is medically fit to dive. The student must be taking a minimum of 25% of the course selected to receive a diploma from Sea Experience. The necessary steps of the referral process will vary in either of the following scenarios as outlined below, but all will consist of:**

1. Verification of documentation
2. Pre-assessment
3. Training
4. Certification

Acceptance of credits of training (referral) is at the discretion of Sea Experience Diving Schools.

Facilities: Sea Experience Diving Schools is located at the Bahia Mar Resort, on Fort Lauderdale, in Florida. The Sea Experience Diving Schools campus consists of the following facilities within 1400 square feet of space.

1. **Classrooms** – Sea Experience Diving Schools has a multi-media classroom with the ability to access additional classroom space as needed. We also have an area of our classroom set aside for our *Library which provides a copy of all manuals required for our programs along with an unabridged dictionary, a thesaurus and copies of periodicals pertaining to the diving industry.*
2. **Pool** – Sea Experience Diving Schools utilize multiple pools at the Fort Lauderdale Aquatic Complex/Swimming Hall of Fame and the Bahia Mar Resort.
3. **Boats** – The Sea Experience Diving Schools custom dive boats are designed to facilitate the diving and educational needs for dive training at all levels.
4. **Store** – The retail store at Sea Experience Diving Schools stocks required and recommended books, materials, and equipment for all levels of divers.
5. **Lake** – Sea Experience Diving Schools utilizes Broward Community College's Tiger Tail Lake for all freshwater training scenarios. This is the same lake that the PADI IE is conducted.

Course Credits: **Credit can be transferred from Sea Experience Diving Schools to another institution at the discretion of the accepting institution. Sea Experience can accept or not accept credits from another institution at their discretion.**

Clock Hours: **One clock hour is representative of 50 minutes of instructor-led training plus an appropriate break.**

Diplomas Awarded: **One diploma for each Phase successfully completed will be awarded to each student. Requirements for this satisfactory completion are as outlined beginning on page 18 under the heading *"All Sea Experience Diving Schools/PADI courses are performance based"*.**

VA STUDENT POLICIES

Veteran's Attendance Policy

Excused absences will be granted for extenuating circumstances only. Excused absences must be substantiated by entries in students' files.

Early departures, class cuts, tardiness, etc., for any portion of a class period will be counted as an unexcused absence.

Students exceeding 2 unexcused absences in an evaluation period will be terminated from their VA benefits for unsatisfactory attendance.

The student's attendance record will be retained in the veteran's file for USDVA and SAA audit purposes.

Standards of Academic Progress for VA Students

Students receiving VA educational benefits must maintain a minimum cumulative grade point average CGPA of "C" (75%) each evaluation period. (term, quarter, semester, evaluation period, etc.)

A VA student whose CGPA falls below "C" (75%) at the end of any evaluation period (term, quarter, semester, evaluation period, etc.) will be placed on academic probation for a maximum of two consecutive term of probation, the student's VA educational benefits will be terminated.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the school to be recertified after attaining a CGPA of "C" (75%).

Veteran's Refund Policy

The refund of the unused portion of tuition, fees and other charges for veterans or eligible persons who fail to enter a course or withdraw or discontinue prior to completion will be made for all amounts paid which exceed the approximate pro-rata portion of the total charges that the length of the completed portion of the course bears to the total length of the course. The pro-ration will be determined on the ration of the number of days or hours of instruction completed by the student to the total number of instructional days or hours in the course.

Veteran's Credit for Previous Education or Training

Students must report all education and training. The school must evaluate and grant credit, if appropriate, with the training time shortened, the tuition reduced proportionately, and student notified.

VA Pending Payment Compliance

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (CH. 33) or Vocational Rehabilitation & Employment (CH 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent the student's enrollment;
- Assess a late penalty fee to the student;
- Require the student to secure alternative or additional funding;
- Deny the student access to any resources (access to classes, libraries or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.

However, to qualify for this provision, such students may be required to:

- Produce the VA Certificate of Eligibility (COE) by the first day of class;
- Provide a written request to be certified;
- Provide additional information need to properly certify the enrollment as described in other institutional policies.

For Post 9/11 GI Bill® (Ch. 33) students and VA Vocational Rehabilitation and Employment (Ch. 31) students, our tuition policy complies with 38 USC 3679(e) which means Post 9/11 and Vocational Rehabilitation and Employment students will not be charged or otherwise penalized due to a delay in VA tuition and fee payments. For eligibility considerations, a Post 9/11 GI Bill® student must submit a VA Certificate of Eligibility (COE) and a Vocational Rehabilitation Student must provide a VAF 28-1905 form. {Please list all additional requirements your school will ask a student to satisfy which are permitted under 38 USC 369(e). Please see 38 USC 3679 (e) for complete details.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill.
